

Our aim is to maintain the best customer relationship possible with the professional management of orders and logistics that are coordinated with the customer – behind these positive Bray attributes are Bray Personnel

Maintaining these standards requires that Bray be forward-looking. Thus Bray has trained young people for many years in readiness for these challenges.

The image above shows the current Bray Germany apprentices with the head of Personnel Mr. Robert Weber

From left to right: Robert Weber, Philip Trosch, Jessica Steiner, Katharina Küppers (sales personnel in retail and wholesale) and Anton Root (skilled expert for warehouse)

The 3-year apprenticeship is divided into 3 days/week on the job and 2 days/week at college. An examination before the Chamber of Commerce concludes the training period.
